

The background features a vibrant purple-to-pink gradient. In the upper left, there is a cluster of white icons representing various beauty products: a bottle, a tube, a jar, and a spray bottle. In the lower right, there are icons for a hairbrush, a hairdryer, a comb, and a pair of scissors. The background is decorated with white, flowing, wavy lines that create a sense of movement and depth.

Tap into *Southeast Asia* Market

MALAYSIA

Halal Cosmetics and Personal Care

With a growing consumer base across the world, halal cosmetics and personal care in Malaysia is poised to become a booming market whilst its expansion tapping into world international trade. The growth in this landscape lead to become one of the fastest growing consumer segments in a tremendous ways and opportunity.

INDONESIA

Cosmetic Ingredients & Supply Chain

The cosmetic ingredients industry in Indonesia is evolving and manufacturers are becoming more dependent. Whilst raw material suppliers continuously introduce new active ingredients and excipients to support the development of new cosmetics. Managing the supply chain effectively is crucial for cosmetic companies to gain a sustainable competitive advantage.

PHILIPPINES

Mass Beauty & Personal Care

The mass beauty and personal care products continued to dominate due to its greater affordability to the majority of the population in Philippines. The distribution especially during the pandemic was less impacted due to grocery retailers and drugstores / pharmacies that carry a wide range of mass beauty and personal care products.

VIETNAM

E-Commerce/Retailer & Cosmetics

The Vietnamese e-commerce market is forecast to continue booming and experts predicted e-commerce will create a new impetus for economic growth. This creates new opportunities for industry players to build business strategies and enter the market in digital world whilst recovering from the pandemic. Aside from that, the retail market is rising which attracts foreign retailers including cosmetics distributors.
